

HOTDOG® PATIENT WARMING SYSTEM STORAGE INFORMATION

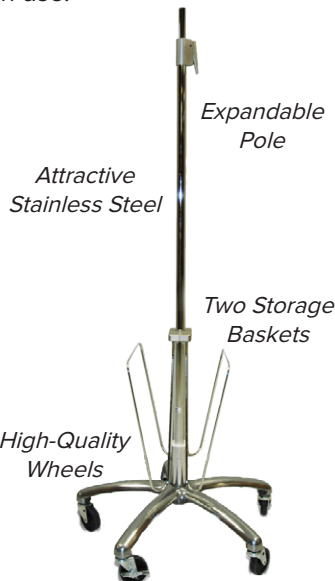

Storing Your HotDog Patient Warming System is Easy and Efficient

- HotDog blankets and mattresses are typically stored in the area they are used... whether it's pre-op/holding, the operating room, or the PACU.
- Controllers easily clamp to any IV pole or metal bar and can stand on flat surfaces.
- Seamlessly integrates into environments with minimal space.
- Reusable system eliminates supply inventory, re-ordering, and stocking disposables.

Here are some of the storage options offered by HotDog:

A116 ROLLING STAND

High-quality "HotDog Stand" includes two baskets for easily storing blankets between use.

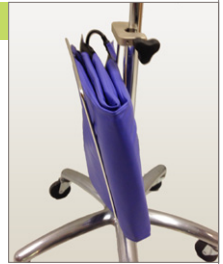

Small Footprint!

Entire warming system uses only a 1 foot radius of floor space

HotDog storage racks are inexpensive accessories that neatly consolidate your HotDog blankets.

A108 IV-POLE MOUNT

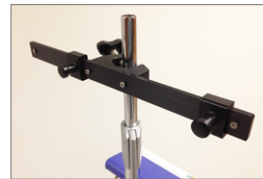

A109 WALL MOUNT

A105 CLEANING RACK

Great for hanging blankets! 14" wide. IV-pole mounted.

Other Storage Options Include:

- Hooks on anesthesia cart or wall
- Folded in cabinets
- Central corridor storage racks
